Autodesk April 2016

## WORDS OF CHOICE

**Stoic**  
Control the controllable.

**Deliberate**  
There are no accidents.

**Introspective**  
Open to change.

**Philocalist**  
Beauty is everywhere.

**Bohemian**  
Follow my own path.

**Contrarian**  
I challenge the accepted.

**Stochastic**  
Every day is a surprise.

**Implacable**  
Always strive for more.

## OBJECTIVE

I'm looking to build connections in the industry. I love working on fun side projects, but I want to build something great with the right group of people. I want my work to make a difference, so reach out if you can help me with that.

## WORK EXPERIENCE

**Signals Analyst (35N)** (September 2020 - Present)  
US Army, Pensacola, FL

**Cryptologic Network Warfare Specialist (35Q)** (September 2019 - September 2020)  
US Army, Pensacola, FL

- Maintained physical fitness to the standards of the Army.
  - Managed a post-wide marketplace for the exchange of goods.
  - Owned and moderated Delta Company's Discord server with 500+ members.
- Key Achievement:** Honors Graduate from the Joint Cyber Analysis Course.

## PROJECTS

**Coupon Booked** February 2019  
<https://couponbooked.com>

Coupon Booked is a cross-platform gift giving application, and the most complex project I have ever attempted. After actively developing it for a year and learning a lot in the process, I recently open sourced the code due to other obligations keeping me from finishing it. I am hoping to circle back and not only add more features but run an advertising campaign.

**Galley Calls** August 2020  
<https://github.com/ajmeese7/galley-calls>

This project uses Node.js, Twilio, Express, and Discord.js to call NAS Pensacola's galley menu line and send the recording and transcription in Delta Company's Discord server.

**Spambot** November 2017  
<https://github.com/ajmeese7/spambot>

By far my most popular open source project to date, Spambot was jokingly started as a pet project. I have written much better code, but the popularity of this project has continued to increase due to the ease of use. I continually take user feedback into account and strive to implement requested features.

## EDUCATION

**American Military University** (October 2020 - Present)  
**Associate of Science** Computer Technology 4.0 GPA

**Zachary High School, Zachary, LA** (March 2017 - May 2019)  
**High School Diploma** Robotics 4.49 GPA

- Team Captain and Head Programmer of FRC Team #6489, Bronco Robotics.
- One of two males chosen to represent the school at Louisiana Boy's State.
- #1 ranked male and rank 3/371 overall, placing me in the top 1%.

## SKILLS

**JavaScript**  
Expert

**React**  
Novice

**Node.js**  
Intermediate

**Python**  
Novice
